What did you like about the training?

Answered: 9 Skipped: 0

Showing 9 responses

- Simplicity
3/22/2020 10:36 AM [View respondent's answers](#) [Add tags](#) ▼
- In general the training was good, I liked the training material shared, is easy to follow, there are good examples, is helping me a lot, I was able to understand and fix a memory leak issue we're having in my company. Thanks Ram.

- I discovery more approach to deal with jvm
3/20/2020 12:08 PM [View respondent's answers](#) [Add tags](#) ▼
- 1.Trainer readiness to share his novice experiences 2.On time start and end of session 3. Good discussion points to keep the audience thinking.
3/20/2020 2:19 AM [View respondent's answers](#) [Add tags](#) ▼

I liked to know about the existence of tools for analyzing performance of java application.
3/19/2020 8:25 PM [View respondent's answers](#) [Add tags](#) ▼

The information transmitted was very well prepared, and practical examples well formatted and useful.
3/19/2020 8:03 PM [View respondent's answers](#) [Add tags](#) ▼

It was quite helpful and informative. We did learn lots of new things in detail. Also, the training materials are very helpful.

What things can be improved in the training?

Answered: 9 Skipped: 0

quality is so good that we need to have this recorded for later reference. Just 5days are not enough to gain expertize Ram has and he is unbeatable :)
3/22/2020 10:36 AM [View respondent's answers](#) [Add tags](#) ▼

The first session was difficult to follow, too much echo, I couldn't hear properly what you were saying, I don't know if it was my network or your microphone.
3/20/2020 6:20 PM [View respondent's answers](#) [Add tags](#) ▼

More practical exercises
3/20/2020 12:08 PM [View respondent's answers](#) [Add tags](#) ▼

1. Know-hows to debug various performance problems and debug them with sample apps and various approaches and patterns during the class trainings. 2. More practical approach rather than theory. 3. Extend the performance aspects to 3-tier apps and growing technologies to capture wider audiences. 4. Automation scripts to capture thread dump and heap to single file in linux
3/20/2020 2:19 AM [View respondent's answers](#) [Add tags](#) ▼

Present use cases of common problems that occur in production environments as examples. Trainees before training can present the problems they want to solve with training.
